### War Labor Board Demands End Of Anthracite Strike

W. L. B. Sources Say Strike Will Be Turned Over To President Thursday

### ARMY MAY BE ORDERED TO ACT

Some Of Miners Vote To Continue Strike Despite W. L. B. Action

### (BULLETIN)

WASHINGTON, Jan. 13.—Members of the War Labor Board today declared unofficially that the board will give the 20,000 striking Pennsylvania hard coal miners "just 24 more hours" to end their 14-day-old walkout.

WLB sources said that the case will be turned over to President Roosevelt for any action he deems necessary unless the strike ends by Thursday noon.

However, the board will not issue a formal ultimatum setting a definite deadline for the strike. It was noted that the board received jurisdiction over the strike only late last night.

Board members assumed that if the case goes to the president, he will order the army to step in and force a resumption of production of the vitally needed hard coal.

Hopes Dampened  
Wilkes-Barre, Pa., Jan. 13.—Hopes for an early end to the unauthorized strikes which have hampered production in the heart of the nation's anthracite fields were dampened today as 27,000 miners voted a return-to-work ultimatum from the War Labor Board.

Approximately 16,000 additional strikers were also voting today (Continued On Page Two)

### PA NEW OBSERVES

Slippery conditions of streets due to snow are aiding the school boys in the can salvage collection, Pa. New notes. Many of the youngsters are using sleds to haul the cans to the collection depots at the schools.

For Victory  
IT TAKES BOTH  
1. Taxes  
2. War Bonds  
PLUS MORE WAR BONDS

War time is apparently due for a lot of discussion in Ohio. Reports from Columbus, the state capitol, reveal that 18 bills were introduced into the state legislature yesterday, asking for repeal of war time in Ohio.

While King Winter is steadily holding the district in its grasp, many persons are already beginning to plan for spring gardening, and for increased raising of garden crops next summer. Indications are that there will be a huge increase in garden cultivation here this year as a result of the impending rationing of canned goods. More home canning will be in evidence here next summer than for many long years, it is certain.

### Report Allied Forces Move Toward Tripoli

(International News Service)

LONDON, Jan. 13.—Allied forces were reported in dispatches from North Africa today to be moving up toward the Axis Libyan port of Tripoli from three directions while patrol activity was stepped up on the Tunisian front.

The Nazi-operated Paris radio asserted in a broadcast recorded by Reuters that British and American forces had launched two attacks in Tunisia, but from the German description it appeared that these were small actions already reported by allied headquarters.

### Attack Made

One attack, the Paris radio said, was made at Seimou, between Bou Arada and Goubellat, 10 miles south of Medjez-El-Bab. Allied headquarters yesterday announced active patrolling by both sides in this area.

The other action, according to the Nazis, took place north of Pichon. (Continued On Page Two)

### Labor Warned About Strikes

### Soldiers On Battlefronts Will Not Accept Any Excuses For Strikes

(International News Service)  
WASHINGTON, Jan. 13.—Marking one of the sternest statements ever directed at organized labor by an administration agency, labor to-day held a warning that American soldiers on the world's battlefronts will not accept any excuses for strikes.

In an opinion written by public member Wayne L. Morse, the war labor board declared:

"No combination of words, no rationalized alibis, no pleas of provocation and extenuating circumstances can be, will be or should be accepted by our fighting forces as justifying work stoppages."

Morse demanded an immediate end of all strikes and pointed out that soldiers are "fighting and dying that American labor in America may remain free."

Morse's opinion was rendered in a WLB decision granting the United mine workers union maintenance of membership protection at the Elkhardt, Ind., plant of Miles Laboratories, Inc., on the provision that no further wildcat strikes occur at the firm.

### Bedaux Arrested In North Africa

Held On Charges Of Trading With Enemy; Was Friend Of Windsor

By KINGSBURY SMITH  
(U. S. Staff Correspondent)  
WASHINGTON, Jan. 13.—Charles E. Bedaux, one-time friend of the Duke and Duchess of Windsor and internationally known originator of the "speed-up" system for industrial workers, it was learned today, has been arrested in French North Africa on charges of trading with the enemy.

Bedaux's exact whereabouts is being kept secret for the time being. If convicted in a civil court of trading with the enemy, he is liable to 10 years imprisonment, a \$10,000 fine and forfeiture of all property used in the offense.

Mystery surrounds the circumstances in which he arrived in French North Africa. He and his wife, the former Fern Lombard, of Grand Rapids, Mich., were arrested by the Germans in Paris only last September in the general roundup of Americans there. Up until today nothing had been heard of him publicly, especially as to why he was released by the Germans, and how he managed to reach North Africa.

Miss Smith, suffering from gall stones, was stricken Friday during an appearance at the Stage Door canteen. Ted Collins, her manager, said surgeons were considering an operation.

### Local Marine Dies Of Wound

Pfc. Harry E. Flinner Fatally Injured By Accidental Gunshot Wound

### DETAILS OF DEATH NOT YET REVEALED

Word was received here Tuesday afternoon of the death of Pfc. Harry E. Flinner, U. S. Marine Corps Reserve, who died as the result of an accidental gunshot wound. He is a son of City Policeman Harry J. Flinner and was in foreign service.

Pfc. Flinner enlisted at the local marine recruiting office May 25 and would have been 21 years of age January 22.

Notification of the young marine's death came in a telegram received by Mr. Flinner, and was signed by T. Holcomb, lieutenant-general, U.S.M.C., commandant of the marine corps. It said:

"Deeply regret to inform you that your son, Pfc. Harry E. Flinner, U. S. Marine Corps reserve, died as the result of an accidental gunshot wound.

"To prevent possible aid to our enemies please do not divulge the name of his ship or station.

### Remnant Of Jap Forces Hard-Pressed

(International News Service)  
UNITED NATIONS HEADQUARTERS IN NEW GUINEA, Jan. 13.—American and Australian ground troops are pressing in slowly on the few hundred Japanese forces holding out on the Saramaua peninsula of southeast New Guinea, a communiqué from the headquarters of Gen. Douglas MacArthur reported today.

As this mopping-up of the fragments of the original Japanese invasion army of 15,000 men neared its close Allied bombers smashed at enemy bases in the Lae-Salamaua area of New Guinea and long-range fighters carried out a low-level attack on Fuliuro, Japanese-held port on Portuguese Timor.

Nine Japanese bombers retaliated with a raid on Merauke, on the south shore of eastern New Guinea, but caused little damage, the communiqué stated.

The Allied attack on the Lae-Salamaua district destroyed a bridge on the road to Komiatum and machine-gunned the coastal highway to Amboga.

These bases are generally expected to be the next objectives in the Allied Islands.

### Twenty Grounded Nazi Planes Are Bombed By Yanks

(International News Service)  
LONDON, Jan. 13.—Twenty grounded Nazi aircraft were destroyed in a raid by American Flying Fortresses on the base of Castel Benito, 10 miles south of Tripoli, Exchange Telegraph reported from North African headquarters today.

A score of Messerschmitt fighters attempted to intercept the raid and a 75-mile running fight resulted in which 14 of them were destroyed without an American loss, the dispatch said.

Four fires were started in airport installations by fortress bombs.

### Tin Can Collection Is Well Under Way

While no exact totals are possible for the first two days of tin can collection in New Castle as yet, it appears from a partial return that upwards of 9 tons must have been collected, a rather remarkable figure.

The rural schools will start their collection today or tomorrow and by Friday, Salvage Chairman Ross D. Rosenberger expects to have a fairly accurate total for the entire county.

Some idea of how enthusiastic the school children were in the first two days' collection of tin cans will be gathered from the following figures. The figures show the number of cans collected. Arthur McGill, 25,590; Highland Avenue, 20,809; Thaddeus Stevens, 11,500; Rose Avenue, 11,269; Lincoln-Garfield, 10,500; Mahoning, 10,000; Pollock, 10,000; West Side, 8,500; St. Mary's, 8,093. This does not include all the schools.

### Local Mother Has Six Sons In Service

Six Boys From McFarland Family Are In United States Army

Mrs. Elizabeth McFarland, a widow, wife of the late Emory McFarland of South Mill street, is giving more to her country than perhaps any other mother in the county, six of her sons now being in service. The sixth boy, Jack, was accepted for service at Erie yesterday, when he was inducted into the army after passing his physical examination at the Induction Center there, and will leave next week to begin his active service, at New Cumberland.

The other sons, are Capt. Oren McFarland, now in Africa; Lieutenant Chester McFarland, Walter, Gene and Emory.

They are brothers of Perry and Norman McFarland, city firemen.

### Explosion Injures 19 In Philadelphia

Huge Still Blows Up At Publickier Alcohol Company; Flood Of Mash, Alcohol

(International News Service)  
PHILADELPHIA, Jan. 13.—Nineteen men today were recovering from injuries sustained when a 150,000-gallon still blew up at the Publickier Commercial Alcohol company, scene of a three-alarm fire only one week ago.

Fifty city firemen inspecting another section of the plant at the time saved several unconscious workers from drowning in five feet of mash, alcohol and water which flooded the big still house. Although no immediate check could be made of the damage, it was estimated to be "extensive."

Firemen theorized that a workman apparently caused a spark which ignited alcoholic vapor in the tank. The resulting explosion ripped out piping to a huge vat in the five-story structure and loosed a torrent of mash and alcohol in process.

### Arrests Are Made In Darlan Assassination

By ROBERT G. NIXON  
(U. S. Staff Correspondent)

ALLIED HEADQUARTERS IN NORTH AFRICA, Jan. 13.—Revealing for the first time that the youth who assassinated Admiral Jean Francois Darlan had received aid and encouragement in carrying out his act, a spokesman for the French imperial council disclosed today that a number of persons have been arrested in connection with the murder of the former high commissioner for North Africa.

Those suspected of complicity were ordered arrested by Gen. Jean-Marie Begeret, deputy of the present high commissioner, Gen. Henri Honoré Giraud.

The spokesman said that the arrests were made over the weekend when it was learned through investigation that the French youth

### Walter J. Cwynar Reported Missing

New Castle Man In Navy Missing In Action, Parents Informed

Walter John Cwynar, 26, gunner's mate second class, in the U. S. Navy, a son of Mr. and Mrs. Stanley Cwynar of 1708 Hanna street is missing in action, according to a telegram received by the parents from Rear Admiral Randall Jacobs, chief of navy personnel. No details are given as to his ship or the theatre of war in which he was operating.

Gunner's Mate Cwynar was serving his second enlistment in the navy. In 1934, when he was a junior in the New Castle senior high school, he enlisted in the Navy and served an enlistment of four years. After his discharge he remained out of the Navy for three years but on January 5, 1942 he re-enlisted and was serving as a gunner's mate, second class.

His family is one of the well-known families in the Sheep Hill district. The report from the Navy department lists him as missing in action. The possibility exists that he may be picked up later.

### Doctors Infected While Vaccinating

Three Philadelphia Physicians Have Infected Thumbs From Smallpox Inoculations

(International News Service)  
PHILADELPHIA, Jan. 13.—Three physicians who aided in vaccinating more than 500,000 people in the metropolitan Philadelphia area since the outbreak of smallpox today were disclosed to have suffered local infections themselves.

One of the doctors is George E. Johnson, chief of the communicable disease division of the department of health for the past 12 years until his retirement last September. Dr. Johnson said he received a cut when he broke the glass of one of the tubes containing the smallpox vaccine.

The other two physicians are Dr. Harrison F. Flippin, an expert on sulfamidilum treatment, and Dr. Aims C. McGuinness, of Chestnut Hill. All three were treated for infected thumbs.

### Gas Thieves Set Fire To Machine

Seventh Ward Man's Auto Virtually Destroyed In Blaze During Night

For the second time in two weeks, gasoline thieves are believed to have been responsible for the destruction of automobiles here, the auto of Alfonso Russo, of 219 South Liberty street being virtually destroyed by fire at 3:40 o'clock this morning in a fire which firemen stated was started in this manner. Damage of around \$5 was done to the garage. Seventh ward firemen extinguished the blaze.

At 7:40 o'clock Tuesday evening, firemen were called to the United Engineering plant, when a Kettle of tar took fire, and spread to a drum of fuel oil alongside. Company workers and firemen extinguished the blaze.

At noon today, firemen were summoned to the property of R. G. Marks of 214 Stewart place, when fire occurred in a car in his garage, which spread to the garage. The damage was not extensive.

### Navy Plane Pilot Killed In Crash

Eastbound Plane Plunges Into Hillside On Farm In Greene County

(International News Service)  
WAYNESBURG, Pa., Jan. 13.—The pilot of a single-engine navy plane was dead today and his craft was a mass of charred wreckage following a crash late yesterday on a Greene County farm.

The plane, flying eastward at the time, plunged to a hillside on the Lightner farm between Waynesburg and Ninevah. Papers found in the ruined ship bore the name of Kermit J. Brooks, Columbus, O., who was believed to be the pilot.

Mrs. Fred Lightner said she heard the plane above the clouds and then saw it crash and burn.

"It was acting funny and seemed to make a nose dive right into the ground," she said. "It burst afire immediately."

Moscow Says Nazis Retreat In Disorder On Caucasus Front

### RED DIVE-BOMBERS HARASS COLUMNS

Vast Amounts Of Battle Equipment Abandoned By Nazis In Flight

By NATALIA RENE  
(U. S. Staff Correspondent)

MOSCOW, Jan. 13.—German forces on several sectors of the Caucasian front were reported in field dispatches today to be fleeing in panic before onslaughts of the Red army.

Russian troops captured vast amounts of battle equipment which the Nazis abandoned in their flight.

The forward driving Red army troops were preceded by strong units of Soviet Stormovik dive-bombers which constantly harassed the withdrawing Germans.

EDITORS' NOTE: The British radio, according to CBS, reported that Soviet troops on the central front recaptured the town of Sloboda, only 25 miles from historic Smolensk. Previous Moscow dispatches had identified this as a town of the same name some 100 miles east of Smolensk.

### Red Air Force Assaults

# Solomons Air Battle Is Being Increased

## Japs Attempting To Do Comeback

Enemy Air Force Making Reappearance In Past Few Days

By JOSEPH A. BORS  
(U. S. Staff Correspondent)

WASHINGTON, Jan. 13.—The battle for control of the skies over the Solomons mounted in intensity today amid signs that Japan's South Pacific air force was making a desperate attempt to stage a comeback by using a newly constructed flying field on New Georgia Island, near Guadalcanal.

Despite terrific losses in men, planes and installations, the Japanese apparently have succeeded in completing fighter plane landing strips at Munda, on New Georgia, and are using them for efforts to halt the deadly, almost daily bombing attacks by U. S. Army, Navy and Marine corps airmen.

**Jap Planes Appear**

Whereas American pilots for weeks encountered little or no opposition from the badly battered Nipponese air force, a navy communiqué reported that on January 11, twelve enemy Zero planes challenged a U. S. dive bomber and fighter squadron.

Four of the Jap planes were shot down and two more probably destroyed, while one American plane was lost, a sign that U. S. airmen still are in control of the skies over the central and southern Solomons. Although the navy failed to locate the field from which the Jap plane rose to attack, it was presumed they came from Munda.

There has been little enemy aerial activity over the Guadalcanal area during the past month, but naval sources asserted that the Japs probably have had time to rush squadrons to that battle zone from other Pacific bases and possibly from Japan itself.

Since the Solomons campaign began, American pilots have shot down more than 680 enemy planes. Since U. S. airmen have been maintaining a five-to-one edge in combat, American losses are not believed to exceed 125 to 150 planes.

## TIN CAN COLLECTION IS WELL UNDER WAY

(Continued From Page One)

ered in. If this ratio is continued over a week's time it will be but a short time until there is a full car load of cans ready for the detinning plant on Neville Island.

Here and there the school children reported housewives who wanted to include other forms of scrap such as metal and rubber. In this collection only tin cans are wanted and nothing else. Oil cans are not wanted, nor beer cans, although there are probably few of the latter.

It is probable that all homes were not visited by the school children in the pre-collection campaign. Housewives who have not been visited by any of the school children are asked to get in touch with the nearest school child in the neighborhood. The youngsters will be glad to get the cans for there will be some financial return for the schools in the collections.

This is not a one week or one month collection. The tin can collection must go on continuously for the duration of the war.

Will Begin Regular Course In Rifle Training At Cathedral Range Thursday Eve

Pennsylvania Reserve Defense Corps Auxiliary Unit will meet at The Cathedral range on Thursday evening at 7:30 o'clock to begin its regular course in rifle training. Capt. William E. Ferver, the commander, stated today.

All active members are requested to be present at this time, so that the training course can get under way as scheduled. Rifles will be furnished and members are asked not to bring their own guns.

Capt. Ferver stated that a few new members can be accommodated at this time, and anyone interested in this work, is asked to report at The Cathedral Range Thursday evening.

## REPORT GERMANS IN CAUCASUS ARE FLEEING IN PANIC

(Continued From Page One)

against the Krasnodar airfield by planes under command of Senior Lieutenant Kiselev.

One eye-witness account from the Caucasus battle front said that "thousands upon thousands" of German bodies were scattered in the streets of captured Mineralnye Vodi and nearby towns.

The strong assault by Soviet airmen against the enemy base at Krasnodar indicated a Russian campaign to sweep westward from the Armavir rail junction in a drive to recapture the Black Sea naval base of Novorossiisk as well as sweeping northward against the Caucasus gateway city of Rostov.

**Would Liberate Oil Fields**

Krasnodar is situated 55 miles northeast of Novorossiisk. Recapture of the city would aid materially in the liberation of the rich Maikop oil fields 65 miles to the southeast, where the Germans sought in vain to get oil because of the large-scale destruction carried out by the Russians before they evacuated the district.

The Red air force attacked the Krasnodar airfield, destroyed 10 planes and damaged 30 others, the Soviet high command announced at noon.

Red army forces moving northward from the region of Georgievsk along the Rostov-Baku railway toward Armavir seized another strategic rail station and occupied a number of additional inhabited localities.

The Russian mechanized column sweeping southwestward through the lower Don made further headway in a drive on Ralsk which is situated on a rail line leading directly to Rostov 100 miles to the northwest.

The merging of two strong Soviet columns in the mid-Caucasus, one driving north and one south, meanwhile gravely menaced the retreat of Axis troops still remaining along the Rostov-Baku rail line, the junction was formed when the column which drove south across the Kaimuk Steppes from the Stalingrad area met a Red army force pushing northward from the Mozdok area.

The British India command announced today.

**CAIRO, Jan. 13.**—Successful night attacks have been carried out by allied fighters against the Axis Libya ports of Tripoli and Homs, the middle-east high command announced today.

Targets on the islands of Crete, Sicily and Lampedusa also were attacked by light bombers on Tuesday, the communiqué from headquarters of Gen. Sir Harold R. L. G. Alexander said.

**LONDON, Jan. 13.**—Royal Air Force bombers last night carried out their seventh raid with 100 bombs against the industrial Ruhr valley of Germany, the air ministry announced today.

The bombardment of undisclosed targets marked the second consecutive attack by British planes.

**LONDON, Jan. 13.**—The Royal Air Force swept over Northern France in strong formations today, taking advantage of clear spring-like weather for a heavy afternoon attack.

terment temporarily in the locality where death occurred and you will be notified accordingly.

"Please accept my heartfelt sympathy. Letter follows."

The Hillcrest avenue marine was a graduate of New Castle High school, was a baseball catcher in the City League, attended St. Mary's church and was an employee of the Johnson Bronze company when he enlisted.

He was also a member of the Gunners Sergeant Harry T. Burns Detachment of the Marine Corps League.

He is survived by his father and two sisters, Dorothy, who is the wife of Lieut. Peter Adams, now in service and who is in San Diego, and Bernice, the wife of Lieut. George Adams in service in New Jersey. His mother died a little more than a year ago.

The death caused much sorrow here because the young marine had many friends.

85 miles southwest of Tunis. French forces are operating in this area and French headquarters in Africa previously announced that its troops successfully carried out a local action northwest of Kairouan which lies to the east of Pichon. Capture of 200 Axis troops, most of them Italians, and seizure of a mountain pass was announced by the French.

French headquarters disclosed at the same time that the Axis had renewed attacks southeast of Fondouk but was repulsed with heavy losses in men and material, including several tanks.

## WAR LABOR BOARD DEMANDS END OF ANTHRACITE STRIKE

with the issue still in doubt on whether to end their wildcat walkouts or await preeminent federal action. Approximately 6,000 miners have already returned to the pits.

**Vote Is Taken**

The decision to ignore the War Labor Board order was taken by employees of the Miles Slope, Grass Island and Eddy Creek collieries of the Hudson Coal Company at Olyphant, Lackawanna county.

The strikes are centered largely in adjoining Luzerne county, where the hard-hit Glen Alden Coal company, world's largest anthracite producer, is located. Most of the nation's anthracite coal now urgently needed because of a scarcity

of oil along the Atlantic Seaboard is mined in five northeastern Pennsylvania counties, of which three have so far been affected by strikes.

The Hudson Coal company men would remain away from work until they received assurances that the 50-cent a month union dues increase, which precipitated the walkouts on Dec. 30, will be eliminated and that their demand for a \$2 daily wage boost be offset by higher living costs will be considered.

### DINNER AT CASTLETON HONORS PLANT MANAGER

Al Cohen, general manager of the National Plants company, was the guest of honor at a dinner given at the Castleton Monday evening by a group of the company personnel and their wives and husbands.

A turkey dinner was served at 8 o'clock to 36.

Master of ceremonies, who contributed much to making the dinner a lively one, was Steve Buck of Youngstown. O., a member of the plant personnel. Entertainment following dinner consisted of music, cards and dancing.

Out-of-town guests present for the occasion were Hy Zucker of New York City, Allan Schwartz of Pittsburgh, Mr. and Mrs. Kenneth Malcolm, Andrew Durys and Russell Winegardner, all of Beaver Falls.

Bernard Martin and John Urban were in charge of arrangements.

### TIFEREH SISTERHOOD MEETS AT SYNAGOGUE

Members of Tifereth Israel Sisterhood gathered in the Synagogue on South Jefferson street Tuesday, with president, Mrs. J. Cobb, presiding. The routine period was opened with singing in unison "America" with Mrs. Maurice Slaven, pianist.

Roll call of officers, who in turn gave reports, ensued, and chairman of the social affairs contributed most of the gratifying accounts of the past year's events. The collecting of Nylon and silk hose, tin cans, books and other articles to help the men in service, was impressed upon the membership at this time.

In the absence of Rabbi Turitz, guest speaker, who was unable to attend, Maurice Samuels, president of Tifereth Israel Synagogue, gave an appropriate address. Immediately afterwards, Mrs. Alex Samuels gave current topics.

It was announced the Sunday school children will receive a special treat in observance of Jewish Arbor Day.

For the social period featured at the close Mrs. E. Gilman, Mrs. B. Palakov, Mrs. I. Solomon and Mrs. William Ginsberg, served as hostesses.

### Degree Of Honor No. 65

The Degree of Honor No. 65 met in the I. O. O. F. hall Friday evening, with Edna Rice, president, in charge.

# TUNE YOUR CAR TO Today's KIND OF DRIVING!

1943 DRIVING IS DIFFERENT! THAT MEANS YOUR CAR ADJUSTMENTS SHOULD BE DIFFERENT, TOO! High speeds, long trips, and wasteful use of gas are OUT for the Duration. That calls for new adjustments, to fit today's kind of driving.

**TO FIT YOUR CAR FOR THIS NEW KIND OF DRIVING...**

- 1 NO MORE HIGH-SPEED PERFORMANCE**—Your car was engineered and powered for finest performance at speeds much higher than 35 miles an hour. It should be adjusted for war-time driving.
- 2 NO MORE HIGH-OCTANE GASOLINE**—Octane ratings of all gasolines are definitely lower than in pre-war days. Your car should be adjusted to its new diet, to prevent wasteful "pinging."
- 3 LESS GASOLINE**—Whether you're an "A," "B," or "C" book holder, every drop of gas must count. All maintenance operations should be made to provide maximum fuel economy at 35 m.p.h. and under.
- 4 LESS DRIVING**—It's a fact—too little "exercise" for your car can be as harmful as too much. More frequent checking and adjustment of battery and electrical system will be necessary to prevent trouble.
- 5 CARS ARE BEING DRIVEN LONGER**—Today's average car has older tires, older brakes, and older steering equipment. Safety inspection and adjustments are more important than ever.
- 6 SLOWER DRIVING AND SHORTER TRIPS**—Slower driving, frequent stopping, and short trips that never let the engine warm up thoroughly, may result in water and sludge in the crankcase, causing danger of sticky valves and clogging of oil screens.

**... IT SHOULD HAVE THIS SPECIAL KIND OF SERVICE**

- 1 TUNE-UP FOR SMOOTH OPERATION AT LOWER SPEEDS**—We adjust carburetor, timing, spark plugs, choke, and heat controls, and put all units in top condition for smoother low-speed performance.
- 2 ADJUSTMENT FOR LOWER OCTANE GAS**—Your engine may need a valve grind, carbon removal, or a timing adjustment to fit it for today's fuels. We are equipped to do the whole job right.
- 3 FUEL ECONOMY ADJUSTMENTS**—In addition to tuning up the engine, we check for dragging brakes, leaking gas lines, and other causes of fuel waste such as the use of improper lubricants.
- 4 BATTERY CHECK-UP**—Let us check the condition of your battery regularly, and make sure that your generator and voltage regulator are functioning properly to keep your battery fully charged under reduced driving conditions.
- 5 CHECK BRAKES, TIRES, STEERING, LIGHTS, ETC.**—Our "Safety Service" includes the important adjustments and replacements that are so necessary as your car grows older, to compensate for wear.
- 6 MORE FREQUENT OIL CHANGES**—Let us check your crankcase for oil dilution, every 500 miles or 30 days. Changing the lubricating oil at correct intervals will keep condensation, rust, acids, water and sludge to a minimum.

THE MESSENGER TO GARCIA

When Elbert Hubbard wrote "A Message to Garcia" the fact that the famous essay was related to the real exploit of a real man, Lieutenant Andrew Rowan, was not generally realized. Rowan, who passed through great dangers to deliver a vital message to the Cuban insurgent General Garcia for President McKinley, shortly before the beginning of the Spanish-American War, has just died as Major Rowan, at the Army's Letterman Hospital in San Francisco.

It was some years after Hubbard's essay that Rowan personally received wide recognition as the hero of the exploit. In fact, it was 24 years later that he was awarded the Distinguished Service Cross for it. Not that this mattered greatly to Rowan. An outstanding point about "A Message to Garcia" was that the President's messenger was a quiet, unassuming soldier who took a difficult and dangerous assignment in his stride. He asked no questions about where Garcia could be found or how he was expected to get to him—just took the job and carried it out.

Rowan was a type of the resourceful as well as brave American needed in peace or war. Lieutenant General Mark W. Clark has given up another example in this conflict. Each man did a job effectively by the shortest route. We could use many more like them now.

THE AFRICAN FRONT

Drew Middleton, now at the front in North Africa, gives readers of the New York Times a realistic picture of the country which surrounds the soldiers from America. "The country they are fighting over looks like sections of our own west," he writes.

Flat and fertile plains are interspersed with rows of dun-colored hills. Across these plains and through these hills wind the roads to war, traffic moving in a continuous stream that aerial raids are unable to stop. The railroads are narrow gauge, their stations white stucco houses. Towns are a curious mixture of modern and primitive. Schools, churches and garages are side by side with Arab hovels of rough stucco plastered with cow dung and roofed with straw.

Farms dot the landscape, owned by Frenchmen. A few have modern machinery, but most fields are worked by oxen pulling hand-made plows. An occasional camel is seen. The people are reported as hospitable to Americans and Britons and are ready to give the passing soldier a bottle of wine or straw for beds.

Similarity between North Africa and American West seems to end with the landscape.

PUNISHMENT FOR PARENTS

Increasing juvenile delinquency is considered one of the difficult problems produced by the war. What to do about it has always been a problem.

Punishment for serious crimes committed by children cannot be counted on as a cure for what ails them. Sometimes it only serves to confirm the warped outlook or emotional unbalance which instigated the offense. In dealing with immature minds, moreover, the ancient problem of making the punishment fit the crime becomes dangerously difficult.

Judge Clay S. Crouse of Beckley, W. Va., believes that the answer is to punish not the children, but their parents. He proposes to bring them before a grand jury, under indictment, to explain and accept responsibility for their youngsters' bad behavior.

This may prove only a superficial solution. Incompetent parentage may be a matter of character rather than morals. Children may turn out to be surprise packages in the best regulated families. But in many cases, of course, neglect and irresponsibility, and even cruelty, on the part of parents are the immediate causes of juvenile misbehavior. And it is, indeed, a crime to ruin a child's chances of living happily and usefully and lawfully with his fellows.—Philadelphia Evening Bulletin.

"IT TAKES BOTH"

Industrial workers of this district and thousands of others gainfully employed throughout this area now are finding the Victory tax deducted from their pay. Other Americans, everywhere, are making the same payments now or will make them later.

The Victory tax is the first direct contribution to victory for millions of citizens. Everything up to this time has been a loan to the government by investment in War Bonds, a loan upon which we are collecting a fair interest.

But this war is a people's war and the people must pay for it, pay for it gladly, eagerly with the thought in mind that our support of our government is in fact a small price for our liberty and freedom.

It is likely that as the war goes on subsequent tax levies will be heavier. That is inevitable, for the War is costing staggering sums. But we, as a people, must be ready and willing to make any sacrifice, however heavy, to maintain our free institutions and our American way of life.

Any tax by the American government, however large, is more acceptable to us as a people than an occupation tax to Hitler, however small.

It will take both . . . continued purchase of War bonds and ready acceptance of income taxes—to prevent an occupation tax.

The Parent Problem

By Garry C. Myers, Ph. D.

EASY MONEY SNARE FOR YOUTH

Yesterday we deplored the wanton waste of money by the average youth who earns it so easily, and the consequent waste in moral character of the young spendthrift. In this practice we saw one of the causes of the present skyrocketing of juvenile delinquency. We observed that relatively few children today are learning at home to be thrifty and self-sacrificing and that for this lack their parents are responsible. There are some obvious reasons.

1. Many parents faced suddenly with big wages are spending them on luxuries (some on riotous living), saving little or nothing for the future.

2. We recently passed through a period when the slogan was "Don't save; spend, spend into prosperity."

3. In the depth of the depression the savings of many children and their parents were lost in defunct banks. "Why save?" many said and believed. Thrift as a moral virtue was no longer held aloft. Indeed, no trait requiring effort and self-sacrifice has had much emphasis in our whole educational philosophy.

4. The fashion among parents is not to deny a child what his playmates have lest he feel inferior. No matter what the sacrifice to his parents, he must have what other children have. He must keep up with the children of the Joneses while the little neighbor children clamor for more luxuries still.

5. Nor must the child today be restrained! That would wrap his personality! Not denied the material things he wishes, he also must not be denied the privilege of doing what he wants to do. Neither must he be required to do what he does not feel like doing. Such has been the fashion of child rearing in America, given the stamp of approval, held up, indeed, is the ideal, by the rank and file of "child experts."

Why then should we expect youths today to restrain themselves in spending on luxuries what they earn so easily? Why should we expect them to restrain themselves in conduct? Why should we not expect delinquency and crime to increase?

Restraint Necessary  
Regardless of their income, parents should not give the growing child so much they know he should not have. They should deny the youngster luxuries and cultivate more self-denials in him. They should restrain him more than most children are restrained, especially in the early years.

When the child earns a salary his parents should require him to contribute to his own support and that of the family, and to limit what he spends for luxury to a definite small amount.

WHEN THEY QUESTION

When this cruel war is ended and the children want to know What we did to serve our country who were just too old to go. It will be a little difficult I fancy then for us To tell to them how bravely we endured a crowded bus.

When the children of our children gather round us at the fire And just what we did for freedom they are prompted to inquire, I wonder how we'll tell it to convince them we were brave, That we gave up needless driving so that rubber we could save?

When they ask us at the table, and there's company about, What we did to help our soldiers in these days of dread and doubt 'Twill embarrass us no little when such moments come to pass, To explain we rode in buses now and then to save the gas.

When these babies of those fathers they may never, never see Have grown up to understand it and they question you and me.

Shall we have the heart to tell them, in a boastful sort of way, That sometimes we gave up coffee and observed a meatless day?

Fourteen million American women are working.

This is more than ever before in the nation's history.

About 3,500,000 women are on actual war jobs.

Many have had no previous industrial work.

An inexperienced or "green worker" is a liability.

New workers must be taught how to avoid accidents.

Women need special clothing for plant work.

Plants are not sufficient and proper work hats are worn.

Various safety devices are provided for protection.

Plants safeguard the health and efficiency of women workers.

This applies both inside and outside the plant.

The work power of women is aiding victory.

HOUSEWORK MAGIC

A woman is being exploited for boasting that with a family including her husband and their three children, she does all her housework daily in two hours. The men are saying, "What a wonderful woman." The women are saying, "In case the woman is telling the truth, which is doubtful, her house probably looks it."

A new market has been found for barber chairs that have outlived their usefulness. They are being shipped to the Congo in Africa where they are much in demand as thrones for tribal kings. The more luxurious and the more gadgets or adjustments a chair has, the more highly it is prized by the tribal chieftains and the greater the price they are willing to pay for it.

The farmers are being urged more than ever to do the things that will win the war and are being handicapped in every way from doing that very thing.

Question: Who should announce my marriage? My mother and father are divorced. I am several hundred miles away from both parents, who were remarried when I was a child, leaving me with my paternal grandparents?—Beth.

Answer: Since you have spent most of your adult life with your grandparents, your friends associate you with them rather than with your parents. For that reason you should have your marriage announced by your grandparents.

Question: On which side of the plate should the napkin be placed when setting the table?—W. W.

What's What At A Glance

Dixie Land Will Play Important Role  
Has Balance Of Power In New Congress  
Anti-New Dealers Are Now In Majority

WHAT'S WHAT AT:

By CHARLES P. STEWART  
Central Press Columnist

WASHINGTON, Jan. 13.—On our war issues our new congress is a cinch. Members may differ as to fighting methods, but these possible differences will be based solely upon the contentions of rival proponents of "em" that respective programs are more effective than one another. It already is evident that there won't be a dissenter from a total victory policy, on general principles.

It also is obvious that combined Republicans and a large group of old-fashioned Democrats are in an anti-New Deal majority. Perhaps it isn't quite as compact as the pro-war bunch, but it's pretty solid.

How far this alliance will stick together on other issues, though, still remains problematical.

Post-war peace planning is what splits 'em.

Republicans, in the main, are for peacetime American isolation, but some of 'em favor world federation.

Pro and anti-New Deal Democrats likewise are divided both ways. The pro-New Deal faction undoubtedly is also pro-federation, but, among the Democrats, there also is a sizable disagreeing element, as witness Senator Burton K. Wheeler, an economic radical par excellence.

It also is a leading opponent of any alignment with foreign countries. Burton might naturally be expected to plug for internationalism, but he doesn't; he fights it furiously.

This middle alignment is uncertain. It'll take more votes to tell the story.

Completely Scrambled  
Historically speaking, the Republicans should support a concentration of the executive powers of government and the Democrats should be against it. At present it's all scrambled. Plenty of Democrats are republican and plenty of Republicans are democrats.

About the only difference I can see between 'em is that they're of opposing political parties. Their dose is too confused to analyze.

Out of 435 members of the house of representatives there are 105 new members. The total is 222 Democrats, 209 Republicans and four miscellaneous, but that does not tell the whole story. The Democratic total consists principally of Democratic gains from the south, which notoriously is anti-New Deal—even counting them as Democratic New Dealers—while they're not, by any means, for the Democrats are principally anti-New Dealers. They're pro-warriors, but not economic reorganists.

The senate doesn't readjust as fast as the house of representatives does, not having as frequent elections.

Nevertheless, the senators are scared.

They've seen what happened to their representatives.

Senate results have frightened 'em.

South Fears Wallace  
Among other folk they're afraid of Vice President Wallace. He's so all-out New Deal that he's considered alarming. He's more so than the president.

The verdict is that he talks too much.

Its reckoning is that he's an Iowa-ite, who'd better be discounted from the southern standpoint.

Southern senators don't like him. Nor do southern representatives.

In brief, it's too much a northern administration, from the Dixie angle.

You hear this from every direction on Capitol Hill.

And Dixie will be decisive in all sorts of ways at this congressional session.

It's tied up with the west agriculturally.

You can see this from the last election returns.

Industrialism's and agriculture's versions are somewhat cohesive.

So it appears in congress, anyway.

Farm and industrial legislators incline to get together.

On party lines they fight like fury.

If confirmed Mr. Flynn will be the first diplomat to do business in a boat.

We have heard of books in brooks and sermons in stones but this is the first time in 10 years a Democrat national chairman has been found at sea.

If appointed Flynn's cable address will be "Neptune" and will get his mail by floating barrel.

When he has the south Pacific straightened out he will move on to the English channel which has been wither an ambassador since Gertrude Ederle quit.

Thought For The Day: Keep 'em fishing!

Rule for beginning any work or play at home: First set up a card table.

The advantage in having a ration board in each little community is that neighbors know who is lying.

Correct this sentence: "Your flannel pants shrank," said the cleaner, "and here's ten bucks to pay for them."

Don't talk unkindly about people you know. The pleasantest party may be ruined by cruel chatter of this nature.

The World and the Mud Puddles

THEY ALSO SERVE  
"I'm not going to be bumped off on the top of a hill like those dumb newspapermen with their cameras."

So a veteran Marine sergeant on Guadalcanal appraised the risks run daily by foreign correspondents. In World War II they prove that journalistic prowess and heroism did not die with the era of Richard Harding Davis.

The stories in the newspapers, signed by reporters from all parts of the war fronts, arranged so neatly in 100 little columns, don't fully reveal the tremendous adventure with life and death that lies behind them. Their assignments are written in blood and pen.

At Guadalcanal Robert C. Miller, among other newsmen, rolled on to the beach with the first boatload of Marines. Weeks later when Miller returned to Honolulu, Major General Vandegrift pronounced the verdict: "He's a good Marine!"

Higher praise has no Marine for the press. Leo Diemer, hospitalized with nine wounds after the Battle for Oran Harbor, jumped from a burning ship to swim to safety, perilously handicapped by a broken ankle in a plaster cast. The Order of the Purple Heart awarded him for "extraordinary heroism and meritorious performance of duty" again expressed the respect of the Armed Services for duties well done. These instances represent what is going on behind the words we read—heroic attempts to get first hand views of the news. In eleven months of war, at least ten newsmen have been killed—one a woman—and more than seventeen have been seriously wounded in action.

Thanks to their daring and to a free press, Americans can pride themselves on being the best informed people of any nation on earth.

One of my readers, W.M.A. Cowan of Troy, N.Y., sends in this story.

"You are supposed to grocery store in the Adirondack Mountain region. 'What's become of Zeke? Haint seen hide nor hair of him for quite considerable some time."

"Oh, Zeke," replied the storekeeper, "he's dead."

"What complaint?"

"Wal, all I kin tell you is he went down to the City lively as a colt and then sent him home in a coffin. The coroner said Zeke died a natural death—got run over by an automobile."

## Men Teachers Are Willing To Labor 1164 Hours A Week

Manpower Survey Shows Part Time Labor Equal To Services Of 27 Men Available

### TWO-JOB PROPOSAL OFFERED INDUSTRY

Men teachers of the city of New Castle will go home after school is out in the afternoon, take off their white collars, put on their work clothes, pick up their supper boxes, and go off to punch the time clock for their second job of the day, if local industry takes them up on their willingness to work part time out of school hours, evenings, and Saturday and Sunday shifts.

In a War Manpower survey report, which men teachers employed by the New Castle School district, through the Men's Teachers' Association, have submitted to the New Castle school board, men teachers have offered their part time services to local industry to the extent of 1164 man hours of work a week. Or what would amount to the services of 27 men working a 44 hour week.

The offer has the approval of the school board and the report has been submitted to industrial employers here, it is stated.

#### Teachers Give Reasons

Given as the reason for making the survey and submitting the data regarding their availability for industrial work, is the fact that it opens to industry a source of manpower which would not otherwise be utilized. The offer is made by this group of professional men to help in the national effort now underway to utilize to the maximum all industrial manpower in our community.

Acceptance of the men teachers' plan, if carried out throughout the country, would put to work the extra hours of labor available from 175,000 men teachers employed in public schools in the United States.

Part time employment in factories during the second school semester would prepare the teachers for full time employment during the summer months. There is the further consideration that extra wages would be a welcome supplement toward meeting the rising cost of living.

#### Further Consideration

The association cites as a further consideration in urging employers to consider their proposal that it would, in a small way alleviate the housing problem, for employment of men whose homes are already here would lessen the need for housing workers from out of town.

Age range of the men teachers interested in the project is from 24 to 50, with an average of 36. Most of them are married and are the heads of families. Their physical condition is given as either excellent or good. Among the former are found those who have volunteered for any kind of labor. The list of jobs at which the pedagogues have worked besides their teaching contains a surprisingly wide variety of experience, many of them skilled or technical.

Saturday is the peak day for time available with 28 teachers volunteering to work a day for a total of 224 hours. On Sunday, 23 men could work 192 hours; 25 men, 164 hours on Friday; 24 men, 159 hours on Thursday; 24 men, 157 hours on Wednesday; 23 men, 150 hours on Monday; and 21 men, 118 hours on Tuesday.

During June, July and August, nearly 40 men will be available for full time employment.

### Your Federal Income Tax

#### NO. 9 INCOME TO BE REPORTED

In preparing a Federal income tax return, income from whatever source, unless specifically exempt by statute, must be reported in the return. The types of income specifically exempt are listed in the instructions accompanying the return form.

In addition to salaries, wages, fees and commissions which must be reported, all bonuses, tips, prizes and awards, and other forms of compensation, must be included. A minister of the gospel must report all fees he receives for funerals, for masses, for baptisms, for marriages, and other like services. If a person is paid in whole or in part for his services in anything other than money, the fair market value of whatever was received must be reported as income. This applies to the rental value of quarters furnished an employee as part of his compensation (with the exception of the rental value of parsonages furnished to ministers of the gos-

pel), board and lodging furnished as part of an employee's compensation, where the board and lodging is not provided primarily for the convenience of the employee.

Income must be reported whether received in hand or not, if there is "constructive receipt"; that is, if it has been credited to the account of, or set apart for a taxpayer without any substantial limitation or restriction, and which may be drawn upon by him at any time. This applies to interest credited to a savings account, and subject to withdrawal during the year, to dividend checks received during the year whether cashed or not, to interest coupons maturing during the year whether cashed or not (unless the bond is in default and no funds are available to pay the interest coupons), and the like.

Interest accumulated, or accrued during the year, on War Savings Bonds may be treated by a taxpayer reporting his income on the cash basis either as income during the year or the accrual may be deferred until the maturity of the bonds and reported as income then. However, a taxpayer on the cash basis who elects to report such income as it accrues must adhere to that method in all subsequent returns.

A farmer who trades or exchanges the produce of his farm for goods

or services, must report as income the value of the goods or services received by such trade or exchange.

Alimony and separate maintenance payments periodically received by a wife subsequent to decree of divorce or of separate maintenance must be reported as income.

In the case of noncommissioned military and navy personnel, compensation for military or naval service, to the extent of \$250 for a single person and \$300 in the case of a married person or head of family, received during the year may be excluded in reporting income. Also the amounts contributed by the Government to the service men's "monthly family allowance" are in the nature of gifts by the Government and need not be included in income.

### Named By The People

Father John's Medicine was originally compounded for Rev. Father John O'Brien of Lowell, Mass., in 1855. He afterwards recommended it to his parishioners and friends.

In this way it became popularly known as Father John's Medicine and many thousands have since been benefited by this valuable preparation. Many impressive endorsements have been received from clergymen, doctors, nurses, hospitals and institutions covering the period of over 85 years.

No amount of advertising alone could have built its reputation during 85 years unless it proved its merit. Father John's Medicine helps build resistance to colds when the body needs more vitamin A. It is also rich in vitamin D. Father John's Medicine gives quick relief from coughs due to colds by soothing the throat, and is pure, wholesome and nutritive.

Father John's Medicine Co. urges everybody to buy War Bonds or Stamps.

## Many Voters Hastening To Get Reinstatement

Many voters in Lawrence county are apparently concerned about their cancellation of voting privilege, due to non-voting within the past two years. On Tuesday afternoon, some 1100 reinstatement cards had been received by A. Lewis Conn, chief clerk in the office of permanent registration, and each mail sees from 150 to 300 more.

In all, nearly 8500 cancellation notices were sent out, about 20 per cent of the voting population. Some of these were registrations of persons who had died or moved away. Others are those of men in the service. But most of them are for

people who for some reason just didn't vote in the elections of the past two years.

All voters receiving cancellation notices can reinstate themselves by filling out the card attached to the cancellation notice. In the case of service men it is only necessary to write across the card, "In Service," and the reinstatement will be made. Voters have until the morning of January 18 to reinstate themselves. After that their cards will be pulled out and before they can vote again they must appear in person at the registration office and register.

## Debate Holding Annual Banquet For Legion Head

Committee Appointed To Inquire Into Possibilities For Annual Visitation

Perry S. Gaston Post has been awarded the date of April 6 for the annual visitation of the National Commander of the American Legion, and voted tentatively at its meeting in the Legion Home Tuesday evening, to accept the date. A committee consisting of C. C. Sweesy, Ivor V. Davis and Clarence S. Jarrett, was named by Commander Fred C. Duff, to report back as to what character the meeting, when National Commander Roane Waring comes here, will be.

It is unlikely that a dinner meeting will take place in the past due to the rationing problem, meat, coffee, and butter being almost impossible to secure in large quantities.

Directors were nominated to the Legion Home Association, and election of these directors will take place at the next meeting, January 26. Following the meeting, entertainment was provided along with lunch by the KPs.

## Sodalities Union Officers Elected

Frances Corio Elected President Of Lawrence County Sodalities Union

Members of the Lawrence County Union of Sodalities met in St. Mary's Hall recently and election of officers took place for the coming year.

The election resulted in Frances Corio as president; Charlotte Leonard, vice-president; Helen Maher, recording secretary; Rene Brancatone, treasurer; Margaret Valley, corresponding secretary.

Chairman of committees are Eucharistic, Margaret Stinard; Catholic Truth, Lucy DiCarlo; Apostolic, Elizabeth Bashero; Our Lady, Patricia Chip; Social, Catherine Duff and publicity, Rita Metz.

Rev. Fr. Leo S. Watterson was in charge of the election and Rev. Fr. John Unger and Rev. Fr. Albert Inteso acted as tellers.

The next meeting will be held in St. Mary's Hall at 2 p. m. on March 14, when the installation of officers will take place.

A postal money order is invalid if not presented for payment within one year of the last day of the month in which it was issued.

## Will Have Roles In School Play

Miss Kathryn Duff And Don Graham To Appear In "Ever Since Eve"

Kathryn Duff Don Graham

When the house lights go off and the footlights gleam upwards on the drop curtain of the senior high school auditorium Friday evening, the waiting cast will be a group of excited boys and girls. They will be from almost every neighborhood in the city. Each one of the fourteen will be sure of a crowd of devoted friends, relatives and schoolmates to savor all the humor of dialog and swiftly moving comedy, "Ever Since Eve," by Florence Ryerson and Colin Clements is just the play for the high school cast, and their friends have heard about it.

Kathryn Duff and Don Graham are lively members of the editorial staff whose amateur journalistic activities and adolescent romances make up the stuff from which the comedy springs. Don is Spud Erwin, the editor's sworn ally and fellow-conspirator against the feminine influence which they think they defeat. Kathryn Duff is Betsy Erwin and holds a corresponding position in the feminist plot. Then comes the strategist with wiles as old as the human race and things happen wherever Lucabelle, the boy-tamer appears or is even mentioned.

Kathryn and Don are both prominent Senior B's. Kathryn is the granddaughter of Mrs. Anna C. Duff of Delaware avenue, with whom she resides. Donald K. Graham is the son of Mr. and Mrs. Roy E. Graham of Northview avenue.

MAN INJURES FOOT

Raymond Van Fossen, of Girard, O., employed at a local plant, was treated for injuries of the foot at 4:30 o'clock Tuesday afternoon. Mr. Van Fossen was injured when a railroad tie dropped on his foot.

## AROUND CITY HALL

Chief of police Willis G. McMullen who recently underwent a serious operation is recuperating nicely. . . . Mayor Charles B. Mayne stated here today that women who come here and attempt to play a life of shame will be given workhouse sentences. The same trip awaits panhandlers, he asserted.

Should the gasoline rationing ban for pleasure continue it is likely Sylvan Heights Golf course will suffer a loss in receipts this year. It is situated about one mile from a bus route. . . . Buses will operate to Cascade Park which no doubt may enjoy a lucrative summer.

Another room, the third floor, city building, has been assigned to the city health bureau. The health department now occupies two rooms. . . . One for office purposes and the other is a laboratory. Examination of food and drink handlers are given in the new room.

In order to keep ashes from freezing where they are stocked in Grove street, they are heated and can be handled easily by street workers. . . . Fire Chief James E. Thomas, patient in the Veterans hospital at Aspinwall is improving some according to reports received here.

## CIVILIAN DEFENSE GROUP HAS PARTY

Wardens and fire watchers of precinct number two, Union township, gathered in the home of the senior warden, Michael Bowden, on Tuesday evening for a meeting and spaghetti supper. . . . Mrs. Jack Scaduto cooked and served the supper, assisted by her husband. . . . Afterwards, the guests enjoyed a period of games with prizes being awarded the various winners. . . . The group will have another meeting in about two weeks.

## Here's How I Licked Wartime Constipation!

It was easy after I was told it's often due to lack of "bulk"

"Seems like I was always 'dosing' up on account of constipation. That sort of stuff gets a fellow down. . . . Then a friend pointed out that these war days were upsetting our whole way of living. Particularly in how we eat. Said I ought to take care my meals were properly balanced—and make sure I got plenty of 'bulk.' Because lack of 'bulk' is one of the common causes of wartime constipation. Those medicinal laxatives gave me only temporary relief, they didn't get at the cause. . . . But, KELLOGG'S ALL-BRAN really fixed me up. It corrects this kind of constipation by supplying 'bulk.' And it tastes swell, too. Just eat it regularly and drink plenty of water. ALL-BRAN is made by Kellogg's in Battle Creek."

## That Extra Something!

...You can spot it every time

Those in the Navy's W. A. V. E. S. do a double

service. In serving on their own, they

also release a trained man for war

duty. In its own way, you've found

that ice-cold Coca-Cola does a dou-

ble service, too. It quenches thirst,

yes. But it does more. It brings

an after-sense of complete re-

freshment.

A drink has to be good to be the

best-liked soft drink on earth.

Coca-Cola started out being good

and keeps on being good. Choicest

ingredients and the finished art

of 57 years of "know-how" set

Coca-Cola apart in quality.

Only The Coca-Cola Company

makes Coca-Cola.

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called Coke. Coca-Cola and Coke mean the same thing...the real thing...coming from a single source, and well known to the community.

The best is always the better buy!

## Regulation On Overseas Mail Changes Friday

New Order, Affecting Only Army Men, Curtails Shipment Of Packages

ONLY REQUESTED ARTICLES CAN GO

According to the information which has just been received by Postmaster William R. Hanna, drastic changes have been made in regard to regulations affecting the mail for men in the army, who are stationed overseas. The current regulations, effective January 15, apply only to men in the army, Mr. Hanna states.

On and after January 15, no parcels will be accepted for overseas mailing unless they contain only articles which have been specifically requested by the soldier and approved by his superior officer. A letter to this effect must accompany the package and be shown to the parcel post clerk who handles the package for mailing.

If the package is approved for shipment, it cannot exceed five pounds in weight, nor be over 15 inches in length, or 36 inches in combined length and girth.

Newspapers and magazines cannot be mailed unless the soldier requests them, and will be accepted only from the publishers after the above date.

New regulations have also been laid down affecting the first class mail. Air Mail delivery will be guaranteed only on V-mail. Other letters even if marked Air Mail and containing the necessary postage, will be sent to the port of destination by air, but no assurance is given that they will be transported in this manner beyond that point.

Discontinuance of insured mail and C. O. D. service on overseas letters and parcels will also take place. Valuable papers are the only items which can be sent overseas by registered mail. Hanna is insistent, and in transmitting money the public is asked to use money orders.

As previously stated, the order affects only men in the army, as regards to the armed forces, but the same order is effective for civilians outside the United States. It does not apply to the men in the Navy, Coast Guard, and Marine Corps.

Normal jaw pressure of a man in biting is 60 to 65 pounds, but the normal bite of a woman is only 25 to 30 pounds.

## Book Homestead Damaged By Fire

Blaze Recently Threatens Structure South Of Harlansburg

Fire a few days ago, threatened the destruction of the home of High School Principal Clare B. Book, and his sisters, Misses May and June Book, local teachers, a few miles south of Harlansburg, only heroic work on the part of the family preventing the home from being destroyed.

The blaze started when the family was across the road at Mr. Book's brother's home, and on their return, they discovered the kitchen ablaze. It was necessary to carry water from a nearby spring and only the fact that the blaze had just started to gain headway enabled them to get the fire out. It was also necessary to break in through a window to get at the fire, as the kitchen door had been locked from the inside. Mr. Book's brother, Randall, was burned about the face, in getting the fire out.

Carcase trading as the Carcase Hook Company, a company against William and Nellie H. Schlusser went to trial. The case is a mechanic's lien for work allegedly done.

### ASKS VIEWERS

M. J. Scanlon has presented a petition to the court asking that viewers be appointed to view his property on Montgomery avenue to assess damages caused when the street was improved.

### OPINION HANDED DOWN

An opinion and order refusing a motion to strike off a scire facias in the case of Harry Mateja and others against Walter and Helen Tuesday. The case is an involved one and starts with Jandrysk confessing judgment against Henry Mateja in 1941. In 1942 Harry Mateja entered partition proceedings and the court awarded the property to him. Still later he conveyed the property to Walter A. Kielar.

### EDGAR DISSENTS

Recently John M. Huston, Register of Wills for Allegheny county stated that he would ask the General Assembly to repeal the law requiring the three day wait for marriage licenses after the application had been made. His reasons were that the health examination now required afforded sufficient delay to thwart hasty marriages.

Prothonotary and Clerk of Courts, John A. Edgar dissents from Mr. Huston's idea. Said he "the fact that a health examination is required seems to me to be sufficient reason not to ask for the repeal of the three day delay. It takes nearly three days to get a health certificate through and this takes up the waiting time. Where there is a valid reason for immediate marriage the court can grant a waiver after the health certificate is secured."

## Builds Boyhood Home Model After 62 Years

Remembering in detail your boyhood home after being away from it for 62 years is in itself an achievement but building a small scale model of that home at the age of 82 is an even greater achievement. Joseph M. Anderson of the grocery firm of Anderson and Anderson has both to his credit and in the firm's store on North Mill street he now has upon exhibit a small scale model of his boyhood home in Coleraine, County Antrim, Ireland.

The small scale model is an amazing piece of work. It shows not only the building but the arrangement of the interior, both of the house and the stables which adjoin the house. In size the building is about 6 feet long. The original is 160 feet long and 27 feet wide.

To see the interior the top is taken off. The first room is the parlor, with its open fire place, tables and chairs. In his early days in Ireland Mr. Anderson says they were permitted to get one half a ton of coal per winter from England, the Irish coal deposits not being opened. Back of the parlor is a long, wide hallway and back of that, two sleeping rooms. Back of the sleeping rooms is a pantry in which was hung the winter's supply of meat, usually three hogs and a steer.

Then the kitchen with its peat fire place, tables, chairs, a settle

bed which could be folded up when not in use. A thick wall separates the kitchen from the flail room of the stables and back of the flail room is the cow stable where eight miniature cows are seen. Then the horse stable where two matched teams can be seen.

The ancestral home of Mr. Anderson was made of stone but his model is of wood. One other difference is that the original home has a thatch roof on it and the model does not.

It is a surprising model of the old home and is attracting the attention of visitors to the store.

### Cancer Authority Dies In Baltimore

Dr. Howard A. Kelly Succumbs Five Hours Before Wife In Same Hospital

(International News Service) BALTIMORE, Jan. 13.—Dr. Howard A. Kelly, internationally known cancer authority at the Johns Hopkins medical school, died in Union Memorial hospital in Baltimore today five hours before his wife died in the same institution.

Dr. Kelly would have been 85 years old next month. Both he and his wife had been critically ill for a week.

Dr. Kelly was born in Camden, N. J., Feb. 20, 1858, and was educated at the University of Pennsylvania. His first medical work was as a resident of the Episcopal hospital in Philadelphia where he built up a gynecological clinic, which attracted wide attention.

Death was attributed to a heart condition complicated by Dr. Kelly's advanced age.

"After cooking the spinach," Junger happened to read in Mother's cookbook, "place a pad of butter on top." Now he wants the author to be shot for treason.

# "Don't Kid Yourself! We could lose this War!"

MISTER, if you think this war's a cinch, better read your paper or listen to the radio. You'll change your mind—quick.

If you think we're going to march to Berlin and Tokio just because we're right—forget it!

People just as clean and decent as we are—just as righteous—just as patriotic, have been ground to the dust under the hobnailed boots of other people trained and toughened for one purpose—war.

Choose now. Either we give our boys the planes, tanks, guns, and ships they've got to have to win—or we're letting them march to their defeat and our destruction. Planes cost money. Tanks don't grow on trees. And the storks don't bring subchasers.

We've got to pay for them. "We" means all of us—including you.

How? By buying WAR BONDS. By putting 10 percent of every dollar we earn into the Pay-Roll Savings Plan. A dime out of every dollar—a dollar out of every ten—every payday. And every time our savings amount to \$18.75 we get a Bond, worth \$25 in 10 years. That's \$4 back for every \$3 we put in. Isn't that the least we who stay at home can do to help win the war? Stop and think about it—

next time you're tempted to buy something you don't really need. Remember the President's words—"We cannot have all we want if our soldiers and sailors are to have all they need."

And if, every payday, we don't set aside every nickel, dime, or dollar we can possibly scrape together for War Bonds, we're letting our boys down.

That's the truth, every word of it—and we know it!

### DO YOU KNOW?

When you buy WAR BONDS, you're saving, not giving! Series E WAR BONDS are worth 3 1/2 percent more in 10 years! You get back \$4 for every \$3 you invest! These BONDS, when held to maturity (10 years), yield 2.9 percent per year on your investment, compounded semi-annually!

Joining a Pay-Roll Savings Plan makes saving easy! Joining your bank's Victory Club (it works like any Thrift or Christmas Club) is a convenient way to save for War Bonds for those who aren't members of a Pay-Roll Savings Plan.

You can have enough money to do a lot of things you'd like to do, and to buy the many things you'll need after the war is over, if you save enough in War Bonds every payday NOW!

You can start buying WAR BONDS by buying War Stamps for as little as 10 cents.

### Inaugural Reception To Follow Ceremony

Martins To Receive Public Beginning At 1:30 Next Tuesday; No Parade

(International News Service) HARRISBURG, Jan. 13.—A public reception will be held by Governor-elect Edward Martin and Mrs. Martin in the rotunda of the state capitol following the inauguration ceremonies next Tuesday, it was disclosed on Tuesday.

The reception will begin at 1:30 p. m. The inaugural proceedings are not expected to take more than one-

half hour, with the new governor's address requiring about 17 minutes.

The reception party will include members of the new cabinet and will continue as long as there is a crowd. Four years ago there was no reception as the parade for Gov. Arthur H. James was still passing the reviewing stand when evening came. There will be no parade this year, but the inaugural ball will be held Tuesday evening.

### Pastor's Son Is Missing In Action

(International News Service) HOLLIDAYSBURG, Pa. Jan. 13.—Rev. F. J. Byer, pastor of Hollidaysburg Church of Brethren, today received a war department message saying that his son, Lieut. Paul E.

Byer, 25-year-old flying fortress navigator in England, is "missing in action."

Lieut. Byer was born and raised in Lancaster, where his father formerly occupied a pulpit. He was educated at Juniata college and Millersville state teachers college.

Experiments made several years ago by the Swiss Army revealed that the men who drink milk are much better able to withstand the effects of long marches than those who drink beer or water.

## New Wilmington, Bessemer Spurt To Nab Triumphs

Wampum Routs Union, 56-29; Shenango "Greyhounds" In Overtime Tiff

CRABINE, G. BENNETT  
TOP LOOP SCORERS

Underdogs almost capped Section 20 during Tuesday's salvo of field goals which zipped through the cords like a heavy summer downpour.

While Wampum was pummeling Union Township, 56-29, New Wilmington was forced into an overtime fray before toppling Shenango, 32-24, and Bessemer rallied in the fourth to edge East Brook, 36-32.

**CRABINE BIG STAR**

Favoring a strained ankle suffered last week, Craine's spurt nevertheless spearheaded the crack Wampum high "Indians" to their second league conquest, a 56-29 thumping of Union, in a "tea-time" fray played on Union floor.

After gaining a 22-12 halftime margin, the "Indians" beaten only once this season in 11 contests, met unexpected resistance. Amarella narrowed Wampum's lead to nine points with a barrage of side shots. Craine and company soon harmonized to pull away with ease.

Craine, whose ankle was wrapped so heavily that it looked like a stuffed stocking on Christmas morning, rained seven "figs" and a foul. In addition, he had at least 10 assists. Guy Bennett, a cute operator, deadlocked Craine for scoring honors. Wampum's fast breaks amazed the host team as well as a packed house of students.

**GREYHOUNDS' GET SCARCE**

Shenango's undaunted floormen nearly engineered the major upset of the early season yesterday at East New Castle. The loss of two "wildcat" mainstays however, chiefly helped New Wilmington gain a 32-24 overtime decision.

The bruising clash, one of the hottest played at Shenango in several seasons, was a honey from start to finish. In the first, the foes battled evenly, 6-6. The "Greyhounds" snared a 14-8 edge as the recess bell sounded.

The Nalus pupils, playing almost perfect defensive ball in the third, hopped ahead, 18-15. Adamczyk, whose control of the rebounds under both hoops highlighted play, committed his fourth and left as the third ended.

**Count Is Tied**

Even at that, the Shenangoans weakened, kept right in the game, gaining a 24-24 count as the regulation 32-minute set ended.

In the overtime chucker, Shenango was held scoreless while the Eagleson lads tattooed the net for eight more markers.

"Billy" Tanner, who tallied three double duffers before leaving the clash via the four personal foul route, sparked Adamczyk was a tower of strength. So was Bully.

Telly Kenny Cathcart flipped 11 points for the winners but finished second to the clever Norm Borowicz who fired a dozen markers.

**BESSEMER RALLIES**

East Brook high found the key to Bessemer's usually tight defense but faltered in the closing period as the classic "Centurians" gained a 36-32 decision.

After marching ahead 17-14, the Bessemers met a staunch Brook

quintet which poured 13 markers in the third to gain a 27-26 edge. Bessemer, caught itself in the finale, canning 10 points while the host club was getting five.

List, Kresovich and Grubisa starred for the winners while Jameson led the Brook assault with 11 points. Copper, at center, left the game in the fourth stanza. His absence eased Bessemer's task considerably.

Bessemer, Wampum and New Wilmington are deadlocked for first, sporting unblemished marks.

## Shutdown Leaves 900-1,200 Hosses Astray In South

Lay Off To Cause Form Change; Fairgrounds, Oaklawn Tracks Benefit

By JACK MAHON  
(International News Service)  
NEW YORK, Jan. 13.—We've been reading a great deal lately about how much the closing of the race tracks will hurt the various city governments, the stable owners, jockeys and the dear, daffy horse players. Did the thought ever strike anyone just what all the acrobatics of the turf business will mean to its No. 1 citizens—the horses which make it possible?

At the last check-up there were between 900 and 1,200 horses still in Florida, and, if latest reports mean anything, most of them will still be there until the Ides of March have become a memory. It is the announced intention of the majority of the owners to keep most of the racers busy, running around the ovals at both tropical park and Hialeah, until the cold spell breaks by north, in New York, when they will be shipped here.

**Form Change Seen**

If they stick to their decisions we wouldn't be at all surprised to see a great change in form occur when the colts finally do get around to racing again, for horses have a habit of reacting strongly to any sudden change in climate or environment.

At the moment the stables of Trainer Ben Jones' Calumet Farm and Hirsch Jacobs are contemplating shipping to Fairgrounds, Hot Springs, Ark. Whirlaway, the world's champion winner, and some others are slated to go to the Fairgrounds in about a week. There's not too much difference in the climate, to be sure but Whirl has been used to Florida and balmy southern breezes. If he should decide to run in New Orleans, and get his ears pinned back, don't be too greatly surprised.

As far as form is concerned, any one buck bettor can attest to the changes which may take place when a horse which has been running on one track is suddenly plopped down and told to hustle on another.

About the only silver lining in the whole situation, if you're a horseman or horseplayer and must have one, is that the Florida shutdown should probably be a blessing in disguise to both the Fairgrounds and Oaklawn tracks.

### PREXIES WILL MEET TO COMPLETE WORK ON MAJOR SCHEDULE

(International News Service)  
CHICAGO, Jan. 13.—President William Hartridge of the American league and President Ford Frick of the National league have agreed to meet in New York next week to complete work on the new 1943 schedule for the two major baseball circuits.

"The new opening date of April 21 and the later closing of October 3 require almost an entirely new draft," Hartridge said. "Mr. Frick and I have been working on it separately since the meeting here last week."

"Inasmuch as we know the holidays and the number of Sundays each team is entitled to we can do pretty much of the chart individually. However, there are certain portions where the schedule must dovetail because of cities having a team in each league, and we have to get together to straighten that out."

First state of the Union to mint copper pennies was Vermont in June, 1785.

## Church Leaguers Begin Second Half Race This Evening

Customary Three-Game Card Billed; Saints-Israel In Opener

Now that the first half title game cheering has subsided, New Castle Church Basketball protagonists start their second half scramble tonight on the Y. hardwood.

St. Vitus, kings last season and first half winners, battle Temple Israel at 7:45, followed by St. George and the Wesleys in the second clash at 8:45 o'clock. The First Presbyterians and N. C. Ramblers meet in the third set.

Before the church loop race begins, the Falcons and Miltons clash in a House league date at 7.

## Illini Racing Board Will View Problems

(International News Service)  
CHICAGO, Jan. 13.—After attempting to gear the horse racing season in the Chicago area to the war effort, the newly formed Illinois turf association agreed today to reconvene Thursday for further consideration of the subject.

Although pledging full cooperation with the war effort, members of the association and representatives of Sportsman's Park and downtown Fairmount Park took no definite action on what course the tracks would take on the wartime transportation problem which forced the closing of Florida tracks.

Among the major problems under consideration was the transfer of meetings from outlying tracks, such as Arlington Park and Lincoln Fields, to more convenient sites such as Hawthorne and Washington Park.

### HOCKEY GAME NETS \$10,624 FOR RED CROSS

(International News Service)  
The Boston Bruins led the National Hockey League by two additional points today following their 3 to 0 victory over the Chicago Black Hawks. It was the first time this season that the Bruins blanked an opponent.

The game, attended by 8,170 spectators, netted \$10,624 in coffers of the American Red Cross.

PHILADELPHIA, Jan. 13.—The OPA came to the rescue today of the state interscholastic athletic program.

Ermond Wicht, secretary of the association, announced that Pennsylvania OPA Director Raymond Ashenfelder had listed "occupational privileges" the use of automobiles by school officials attending athletic contests as part of their duties.

Also, the OPA ruled, such persons may transport team members in their cars.

### HERE AND THERE IN SPORTS LAND

Today we chronicle the death of Pfc. Harry E. Flinner, U. S. M. C. reserve from an accidental gunshot wound while in foreign service. To many of us he was known well, having watched him grow up from a little lad to become one of our defenders and when he marched off to war, there went a man—a six foot, husky athlete, fortified with a New Castle high education, and discipline because of steady and worthwhile employment. As a member of the City League he caught for the Red Sox for some time and was regarded as one of the coming catches of baseball. He would have been 21 years of age January 22.

Fritzie Zivie-Mayon Padlo and Carmen Notch-Al Davis fights scheduled for next Tuesday in Pittsburgh have been set back until January 26 because of a cold contracted by Davis.

### Washington Host To Franklin Five Thursday At 3:30

First place will be at stake Thursday afternoon when George Washington and Ben Franklin battle in a New Castle Junior High league game. The tip off time is 3:30.

Franklin inaugurated its league season by trouncing Mahoning while Washington was extended before eking out a four-point win at the expense of the seventh warders.

On Friday night, Franklin plays the Wampum Reserves at Wampum.

### FALCONS-MILTONS TO CLASH TONIGHT

Polish Falcons and Milton A. C. clash tonight at 7 o'clock on the Y. club in a House league clash. Victory for the Falcons will give the Sheep Hillers a tie for first place.

Falcons want to book games with all church loop teams or any other fast quints. Leo "Pony" Ryglinski is booking manager.

## Light Trading In Day's Market

Stock Market Holds Within  
Narrow Limits—Under-  
tone Is Steady

(International News Service)  
NEW YORK, Jan. 13.—The stock market held within narrow limits today, with the general undertone somewhat steadier after yesterday's irregular decline.  
Commodities met support after Tuesday's blank on the freezing of corn prices. The latter was down fractions, but most other cereals ruled a shade higher.  
Trading was light in the stock list. There were a few individual issues which showed notable changes. Texas Co. slipped almost a point at one time in the wake of yesterday's special offering of 56,724 shares.  
Modest gains were registered by U. S. Steel, Bethlehem, Chrysler, Goodyear, U. S. Rubber, Sears Roebuck, N. Y. Central, Anaconda, Kennecott and Consolidated Edison.  
U. S. Gypsum, International Nickel, Reynolds Tobacco "B" and Goodrich were among the stocks to lose ground.  
Bonds were relatively firm and quiet.

## Mathews Conveyor Company Presented Army-Navy E Award

ELLWOOD CITY, Jan. 13.—Proudly waving over the Mathews Conveyor company is the beautiful Army-Navy E award, a symbol to all men and women of Mathews' are doing an outstanding job on the production front.

The banner and individual "E" pins were presented to the company and employees at an impressive and solemn service held Tuesday afternoon at the plant. Employees witnessed the ceremony as did many specially invited guests including the heads of other Ellwood industries. It was not only a proud day for Mathews but for the entire community for less than one percent of the nation's industries engaged in war production have been awarded the honor. The presentation made the third to be made in Ellwood City, which has long been outstanding in Western Pennsylvania industry. The first went to the Aetna Standard Engineering company, the first company to swing to full-time defense work here, and the second to Ellwood's largest industry, The National Tube company.

**Appropriately Decorated**  
The plant was appropriately decorated with patriotic banners and flowers which centered about a huge V background.

W. L. Dean, secretary and treasurer of the company, was the able presiding officer. In his introduction he described the progress of the company in war work. In June 1940, expansion of the plant was started with production getting underway in early 1941.

It was necessary to add men and woman power in all departments which was aided greatly by the foundation of early employees experience and skill. The company was able to find several experienced conveyor engineers, and the people of this department made up for the lack of members by serving 12 hours a day, 7 days a week for many months. Regular employees worked ten hours a day for 7 days a week for more than a year so that shipping schedules were met. The same pattern of time and effort is true of all departments.

The company has not been held up by stoppages, nor had the problem of absenteeism to contend with, and the production per man has been greater in 1942 than in any other period of the company's history.

**Presents Burgee**  
Brigadier General William C. Kabrich, chemical warfare service, Edgewood Arsenal presented the burgee. He congratulated the company and the employees on the important part they are playing in the war effort, saying "you are a part of the shock troops of the production front," and it is an achievement that aids America and her Allies.

"Your cooperation has been an inspiration to those of us who have been directly identified with technical development. I recall the valuable help that we have received in the past from the members of your organization. This help came in preparing plans for various assembly plants under the control of Chemical Warfare Service. It was wholehearted. The incendiary bombs that Doolittle dropped on Tokyo were assembled in a plant that used Mathews Conveyors, and that was designed with the cooperation of the personnel of your company," stated the Army officer.

The flag is a promise to fighting men that they have a chance to stay alive and to win a victory, the speaker reminded the group.

**Accept Awards**  
Frank E. Moore, president of the company, and Orrie Mohr, second oldest employee of the company, accepted the banner. President Moore said that the award came in honor of the combined efforts and full cooperation of every employee.

The individual pins were presented by Commander W. W. Slocum, U. S. Navy, who stressed the importance of individuals in teamwork. It will be several months before the nation has any reserve stock of war materials. Today everything goes directly from the factory to the front. He emphasized the life of some young man on the battlefield. The employees were represented by Robert Colazzi, the company engineer with the long service record, and Mrs. Melba Roof, oldest woman employee.

**Woman's Club Hears Talk About Mexico**  
ELLWOOD CITY, Jan. 13.—One of the most enjoyable programs of the year featured the Woman's club meeting Tuesday afternoon at the city building, and was a talk on Mexico by Nelson Runyan, who toured that country last year.

Presented by Mrs. H. S. Gold, he showed a very large exhibit of Mexican articles. In keeping with the program's theme, Mrs. Marie Lukavics gave two lovely Mexican dances and the club chorus contributed Mexican selections.

J. S. Bowater, president, conducted the business meeting. It was decided to buy \$200 worth of bonds in addition to the \$25 bond that is purchased each month. Mrs. John H. Hough, Mrs. Robert Barlow and Mrs. H. R. Smith were named as the nominating committee with the election to be held at the February meeting. Every future club day will be guest day, and the plan of telephoning members about each meeting will be discontinued for the duration.

At the February meeting on Tuesday, the ninth, Mrs. J. D. Sartwell will give a talk on "The Pan-American Union." The drama group of the local high school directed by Miss Elizabeth McKnight will present a play and Miss Thelma Winter will contribute a piano solo.

**Announce Program For Senior Dinner**

Presented by Mrs. H. S. Gold, he showed a very large exhibit of Mexican articles. In keeping with the program's theme, Mrs. Marie Lukavics gave two lovely Mexican dances and the club chorus contributed Mexican selections.

J. S. Bowater, president, conducted the business meeting. It was decided to buy \$200 worth of bonds in addition to the \$25 bond that is purchased each month. Mrs. John H. Hough, Mrs. Robert Barlow and Mrs. H. R. Smith were named as the nominating committee with the election to be held at the February meeting. Every future club day will be guest day, and the plan of telephoning members about each meeting will be discontinued for the duration.

At the February meeting on Tuesday, the ninth, Mrs. J. D. Sartwell will give a talk on "The Pan-American Union." The drama group of the local high school directed by Miss Elizabeth McKnight will present a play and Miss Thelma Winter will contribute a piano solo.

# Nation's Farmers Are Told Food Is Weapon Of Total War Today

By ALVIN ROSENFELD  
(U. S. Staff Correspondent)

WASHINGTON, Jan. 13.—President Roosevelt told America's farmers on Tuesday that food is a weapon of total war, ranking in importance with guns, planes, and tanks, as he called for the greatest possible production to help win the "final victory" and "the peace that will follow."

The president's message was read to the nation's 6,000,000 war-conscious farmers by economic czar James F. Byrnes on a nation-wide radio broadcast in connection with the first "farm mobilization day" in the country's history.

## Farm Victory In 1942

Mr. Roosevelt said that American farmers last year won one of the "major victories" of the United Nations in 1942 and that free people everywhere were grateful. "This year the American farmers' task is greater, and the obstacles more formidable," the president said. "But I know that once more our farmers will rise to their responsibility."

Mr. Roosevelt said that the United Nations are using food as a weapon to keep "our fighting men fit and to maintain the health of all our civilian families; to earn the friendship of people in liberated areas and to serve as a promise and an encouragement to peoples who are not yet free."

"In terms of total food supply the United Nations are far stronger

than our enemies," the president said. "But our great food resources are scattered to the ends of the earth and we no longer have food to waste."

## Food Precious

"Food is precious, just as oil and steel are precious. As part of our global strategy, we must produce all we can of every essential farm product; we must divide our supplies wisely and use them carefully. We cannot afford to waste any of them."

Secretary of Agriculture Claude R. Wickard, foreign diplomats and members of the United States armed forces joined with the president in appealing to the nation's farmers for an all-out effort to win the battle of farm production.

Secretary Wickard said: "The same war time conditions that create the enormous need for farm products are also creating scarcities of manpower and materials. We are going to need more assistance from town and city people who can help out with work on farms."

## Supplies To Russia

Russian Ambassador Litvinov declared that a lack of foodstuffs being felt in Russia is "to a limited extent being filled by food supplies from the U. S. A. . . . The Red army and the Soviet people deeply appreciate the help received from the U. S. A. and Great Britain."

Col. William C. James, recently chief of staff to Maj. Gen. A. A. Vandegrift on Guadalcanal, said that on the Pacific island "food was not abundant but there was enough at all times to give those men the energy to endure and to win."

And Lord Woolton, British food minister had this to say:

"Whatever share of your food production may come to us here in Britain this year, I pledge you will not be wasted. Three years of rigid food rationing have taught us how to distribute food so that it will best serve the war effort. . . . It will produce a maximum of planes and tanks and guns."

## Lions Hear Fine Address On Peace

Attorney Joseph Rashid Expresses Hope For Lasting Peace Following War

New Castle Lions, at their luncheon meeting Tuesday noon in The Castleton, heard a fine address on peace aims following the close of the war, given by Attorney Joseph Rashid, of Detroit, brother of Samuel Rashid, program chairman of the club.

In spite of the failure of efforts by many peace organizations following the close of World War One, Attorney Rashid stated that this did not preclude a settlement which would bring lasting peace after the close of the present war, but felt that peace overtures should come from the heart.

He felt that there would be need for education to overcome the efforts made by all nations at the present to arouse their people to a high patriotic pitch, but felt that this could be done, and that world charity would be shown by the stronger nations toward the weaker and those of the have-not group.

Prior to his address President George Winter, Jr., was presented with a president's pin by Dr. E. P. Henderson in behalf of the club.

## Food Price Rose 16 Per Cent In '42

Steady Increase During Year Ended By Topping '35-'39 Average By 31 Per Cent

(International News Service) WASHINGTON, Jan. 13.—The price consumers paid for food during 1942 rose 16 percent, the board of governors of the federal reserve system stated on Tuesday.

During the twelve months ending November 15, 1942, the board's figures showed there was a steady increase in food prices, which finally topped the 1935-1939 average by 31 percent.

"Prices of foods rose, as a group, at a rate almost as fast as during the previous year, although in 1942 an increasing number of foods were made subject to retail price controls," a board statement revealed. The greatest increases were noted in commodities not subject to price controls, it said.

## SISTER IS DEAD

## Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must take the way it quickly allays the cough or you are to have your money back.

## YOUR WASTE FATS WILL HELP COOK THE AXIS

But the recipe calls for a half a billion pounds! That's why Uncle Sam wants every family to save between one and two pounds each month. Those pounds mean glycerin with which to make explosives, steering gears, compasses, signal rockets!—they mean putting the heat on the Axis.
